Commentary

As part of the re-structure project undertaken by the company extending through to Q2 (Dec 08) the Company invested in extensive customer trials of its products and services. This investment along with other "one off" costs associated with the restructure has caused a net cash outflow of \$1.314 million. These trials have resulted in orders for equipment and services being received (see ASX announcement 14th January 2009) which shall significantly improve revenues and cash flows during the 2H FY2009.

Since 31st December 2008 the Company has raised an additional \$310K of working capital by way of share placement and plans further capital raising in Q3 (see separate ASX announcement this date).
